

# ***Affordable Co-parenting, Family Reunification, & Supervised Visitation***

At **Bridges Counseling Center**, we are objective, client-centered therapists that provide a friendly, relaxed setting while helping many parents and children strengthen their bonds and develop healthier, happier relationships.

***Whether court-ordered or voluntary, we can help with:***

**\*Co-Parenting Counseling:** In a neutral environment, we help parents cooperatively develop “parenting plans” that are in the best interest of the children.

**\*Family Reunification Counseling:** We coordinate with custodial parents and help non-custodial parents gain visitation or be re-introduced back into the life of a child.

**\*Supervised Visitation:** Whether you need Level 1, 2, or 3, we provide professional, therapeutic services and are dedicated to keeping your child physically and emotionally safe and supported during the visit.

With many years experience working with the family court system, family court attorneys, judges, and CPS, we have a balanced understanding of how the system works. We are also available to schedule off-site visits if preferred.
